

“When we were preparing to leave; at the end of the Retreat, and this Enchanting Area, and all the Experiences and Memories. We did 1 last thing, bought a Love Lock, shaped in the form of a Heart. You could ( for us ) hold hands, make a wish, and then select a place and lock your lock.

~ Harry and Donna

## About us

**Dr. Richard Jelusich** has been teaching, giving lectures, workshops and private sessions for over 20 years. He served as Dean of Administration and Core Faculty at the California Institute for Human Science (CIHS), is on the Board of Directors and remains as core faculty. His Ph.D. is in Human Science, and his research work is in light and sound, and the blending of metaphysics and science. Richard is a gifted intuitive and adept energy worker.

**Lisa Steels** began studying yoga in 2003, pursuing a practice to create muscle balance and flexibility. During teacher training, Lisa experienced a severe car accident and was able to use yoga as a healing modality. Yoga became an integral part of Lisa's life and was essential in her journey to health, several years later when she was living with Chronic Lyme Disease. Through the healing gifts of Yoga, Lisa became inspired to share her experiences through the service of teaching Yoga and Yoga as Therapy.

“Our Journey is about connecting to sacred sites; remembering who we are and how we are a part of all creation.”

“Our collective presence on this Journey of the Sacred Heart is also of the conscious intention to charge the Earth Grid in bringing about the Golden Era of Inner Trans-formation.”
