INTRODUCTION TO SPIRITUAL HEALERS' TRAINING

Thank you for your interest in Healers' Training! This is an 18-Level, healing course and a journey that blends philosophy, techniques and experiential spiritual healing into a beautiful unfolding of your own awareness.

The basic format of each weekend workshop is the same:

- 10:00 a.m. – 4:30 p.m. or later.
- Syllabus of each level with Outline, Topic, Discussion and Exercises.
- Two hours or more of lecture with PowerPoint presentation, plus questions and answers, all recorded live for every student.

- Break for Lunch.
- Afternoon experiential healing work with fellow students, starting with Level One. After Level 6, you may invite outside individuals to experience Spiritual Energy Work/Healing in the afternoons

Premise: This course is not just for those who wish to learn Spiritual Healing, but for those who wish to continue their personal spiritual development. You are learning spiritual healing which will include and enhance your pranic, radiatory, telepathic and magnetic healing abilities naturally. Spiritual healing is not limited to time or space, because students are working at the level of the chakras where the whole human being emanates his/her individuation into this dimension. Therefore, this is the most powerful and fundamental healing that I know of because it works on the level of consciousness and affects the four archetypes: mental, physical, emotional and spiritual.

Students are taught how to use their chakras to observe the **“Whole Human Being”** (mental, physical, emotional and spiritual aspects of the individual), to make assessments and to allow healing energy to flow through them. As the students use their chakras, they become stronger and stimulated and eventually awakened. Students learn more than the philosophy and techniques of this powerful healing and undergo their own **inner transformation**. As students apply healing, balance and support to others, the work helps to heal, balance, and support their own physical, mental, emotional and spiritual development.

Course instruction includes the latest studies on Biofield Science, Energy Psychology, Quantum Physics and Toroidal Energy Fields.

The Goal of Spiritual Healers' Training for the Whole Human Being is to help you become a self-empowered, self-realized individual who is spiritually aware and an independent thinker; emancipated from the illusion of separation from the Oneness in which we all live.

This training will awaken and strengthen your higher sense perceptions as well as your healing abilities and as a result some of your “stuff” will inevitably come up. These levels will cause fundamental core-shifts to happen within you as you infuse more of your **Soul-Quality** into your waking consciousness. Some levels may be difficult to assimilate and take time to integrate, so listening to your lecture recordings is helpful for the process. Practicing with fellow students is a **required** component and essential to integrate the levels taught as a base for Dr. Jelusich's more evolved teachings.

Healers' Training is not for everyone, but is for those who truly desire to become spiritually stronger, more grounded, and for effective facilitation of healing in themselves and others. Dr. Jelusich will teach philosophy, science, cosmology and the esoterics of human evolution of consciousness, while providing intellectual balance to the experiential spiritual training you will do at each level. All healing boils down to one thing only:

***“Healing is overcoming any illusion
that separates you from the oneness
in which you already live. ~ Dr. R. Jelusich***

Spiritual Healers' Training for the Whole Human Being

Taking the levels: In order to obtain a Certificate of Completion, you must finish all 18 levels of the Spiritual Healers' training. Some levels may be audited by special permission and interview with Dr. Jelusich.

Each student must attend a minimum of three Practice Sessions per month (9 hours) to be recorded in their Practice Log. Each session must be under the guidance of a Qualified Graduate student or qualified Teacher-in-Training – these practice sessions include discussions of class information and How To's to improve your techniques and skills.

Each student must complete the Reflective Practice Assignment for each level of training and deliver to Dr. Jelusich's assistant via email, drop-box or regular post prior to the next level of training. Note every practice session questions will be answered regarding these reports and a practice session is ideal for writing the assignments.

There are two Spiritual Healers' Training levels taught in each training weekend; with the exception of Level 3 and Level 18. They each require a full weekend for training. Some levels are about the philosophy of healing and some are about techniques. Dr. Jelusich (previously Dean of Admin. at the California Institute for Human Science) will be teaching some science aiding students to be current with both esoteric and practical applications of spiritual healing and its effects.

Spiritual Healers' Training Students are taught two important phases of healing work:

1. **The Healing Work itself** - Students are taught what spiritual healing really is, how it works, how to use it, how to create a safe environment, and how to use their own chakras to view the character of the person they are working on.
2. **The Story** - Students are taught how to interpret their intuitive impressions when working on clients in order to *tell the story* of what the healing is, what caused the problem in the first place, and what to do about it. Students are encouraged to continue to develop their abilities to deeply understand the healing power that is flowing through them, and to be able to articulate the exact mental, physical, spiritual and emotional condition of the client.

While you are working on someone on the table, Dr. Jelusich is working energetically/ spiritually on you, making adjustments to your chakras, energy field, grounding, etc. Much energy is being moved in these work-shops, and it is expected that students will have unique experiences and reactions while learning healing techniques.

Dr. Jelusich creates a safe and loving atmosphere for the work and his students.

Students learn in an experiential, hands-on environment. Workshops are taught and recorded with a topic lecture on methods, techniques and philosophy followed by hands-on active healing practice under Dr. Jelusich's direct supervision. Healers-in-training learn about their true multidimensional nature and philosophy of one-ness.

It is strongly suggested that students take it easy and rest after each level. Most people and many students do not understand energy work, so they can get tired and some of their "stuff" can come up after a weekend of training. This is normal. Many students are now *taking Monday off* after the weekend training. It is good to get rest in the day following classes in order to process the integration of what you have learned and experienced.

Attrition: Dr. Jelusich has been teaching healers since 1999 and has more than 475 graduates and students from his Healers' Training course. His spiritual teachings bring up some of the students' "stuff" simply because the students are now using, awakening and developing strength in their chakras while observing the condition of others' mental, physical, emotional, and spiritual states. While developing themselves spiritually, students are presented with their own issues and karma (along with their increased abilities to deal with releasing their karma) much faster.

 - If you have not pre-paid, payment is due and will be accepted Saturday morning from 9-9:50 a.m.
- **10 a.m. Healers' Training** begins and is completed around 5:30 p.m. (occasionally later).
- **A Guided Meditation** begins each day's workshop, **promptly at 10 a.m.** **Note: Doors are closed for Meditation**
- **Lecture:** Two hours or more of lecture follows the meditation with a PowerPoint presentation; Drop Box or MP3 files are available at the end of day, Sunday. **NOTE:** All your questions and answers are recorded live for students to review.
- **Break for lunch:** Students may bring a lunch or dine out as time permits (usually 60-90 minutes).
- **2:00/ 2:30 p.m. Experiential Healing:** Even at Level 1, you will be up and doing healing work. Dr. Jelusich will be working (making energetic adjustments) on all the healers as they work on the people on the tables.
 - Most students highly underestimate subtle energy healing, so please get adequate rest, drink water, and follow your own spiritual practices after healing workshops. If possible take Monday off to rest.
 - Levels 1-5 you practice with your fellow healers. After Level 6, you are encouraged to invite people to come for a healing experience. Students will do the experiential healing (practice) and then discuss the healing work with the volunteer after each round of healing. There are usually 3 to 4, 15 minute rounds per afternoon.
- **End of Class:** Return your name tag Sunday afternoon. The recording of your classes can be found in your personal DropBox for your benefit. Dr. Jelusich covers some deeply esoteric teachings that you can absorb more fully over time by listening to them again quietly at your leisure.
- **Massage Tables.** We use massage tables for the comfort of the person being worked on. The rule of thumb is one massage table for every four students (one person on the table, 3 or 4 healers). It would be helpful if you have a massage table and could bring it. Please call or email and let us know, so we can coordinate having enough tables.

Spiritual Healers' Training for the Whole Human Being

Certification: The Spiritual Healers' Training course taught by Dr. Jelusich is not yet part of the US or Canada educational system. You will receive, upon finishing 18 levels, Reflective Study Assignments and Practice Logs; a Certificate of Completion from Dr. Jelusich. *Currently we are working on CEU certification of the program for the US and Canada; to provide students a way of being recognized to obtain CEUs for massage therapists, nurses, acupuncturists, and hypnotherapists. In the US, the program currently qualifies for 4 units of independent study with the California Institute for Human Science. The program also provides one year of course study for students wishing to follow the Spiritualist Ministry path through Universal Church of the Master of San Jose, CA.

Graduation Requirements: Graduation of The Spiritual Healers' Training program requires all students to finish each of the 18 levels, including attending and participating in group practice sessions in both the classroom environment and with qualified Graduates or qualified Teachers-in-Training outside of the classroom. In addition, there are 34 written case study assignments to this training two of which **must be completed** following **each** level of training. That is four for each weekend of training and returned to Dr. Jelusich prior to the next level of training. Note: Special instructions for Level 3 (four assignments); Level 16 (only if a Soul Infusion is preformed) and Level 18 (no assignment).

Practice, practice, practice! Practice with other students is **essential** to your training. Listening to your Drop Box files and MP3 recordings; increases your connection to the energetic presence of the teachings. Ask questions, apply what you've learned.

Practice is imperative between levels; a practice log of a **minimum of 10 practice sessions** (between course weekends) is also required to be handed in prior to each level of training. Each student is evaluated on his/her class participation and performance by Dr. Jelusich and will only graduate based on a committed level of attendance and participation in class including all; lectures, assignments and practices.

Dharma Hours: Each student is expected to complete a minimum of 80 Dharma Hours to complete the course. Dharma Hours are supervised volunteered hours at conferences, trade shows, public events where the student is interacting with the general public discussing the tools and techniques of Spiritual Healing. A hosted information night with practice is considered a Dharma event and Dharma hours – although regular practice hours are **not** a part of the Dharma hours or events.

Attendance Requirements:

- ❖ *Due to course content, beyond levels 1 and 2, Dr. Jelusich is reluctant to teach 'Make-up' classes.* The class calendar is prepared well in advance to allow sufficient time to resolve scheduling issues. The synergy of the group experiential practice is a very powerful and important part of all Healers' Training Levels. That synergy is called "The Maharishi Effect".
- ❖ If a student *cannot* attend a Healers' Training level, he/she may:
 - Travel to another city to take the level(s) missed – classes are currently offered in Calgary and Camrose, Alberta, Canada; San Diego, Monterey in the U.S. and soon in and Chicago, IL U.S. and Edmonton AB, Canada.
 - Speak with Dr. Jelusich or his assistant regarding any conflict of dates and possible solutions.

Volunteer Release Form for Spiritual Balancing

Note: All students are *volunteers* during training

Healers Training for the Whole Human Being

Spiritual Balancing is a noninvasive powerful healing modality that works at the level of the chakra systems. The chakra systems include seven major energy centers located at specific locations along the spine ie: from the bottom of the spine to the top of the head. The intention of the healing session is to help energetically balance, any individual mental, physical, emotional, and spiritual issues.

I understand that as part of the healing process there may be a need for a "laying on of hands " (light touch) and give consent to such "laying on of hands " as deemed necessary by the practitioner. If for any reason I am or feel uncomfortable during my treatment, I will let the practitioner know and the treatment will be altered or the session will be terminated.

It has been made clear to me that Spiritual Balancing is not a substitute for any medical examinations and/or diagnoses and that it is recommended that I see a physician for any physical ailments(s) that I might have.

I understand that Spiritual Balancing is designed to be a complementary health aid and in no way will take the place of a physician's care when a physician's care is indicated. All comments or concerns relating to the healing session by the students and/ or Light News teaching staff are not to be interpreted as a medical diagnosis.

I understand that there will be no diagnosis of illness, disease, or any other physical or mental disorder. I understand that there will be no prescribed medical treatment or pharmaceuticals and there will be no massage or any manipulation of the spine.

As part of the student's experiential learning experience I consent to an open classroom feedback discussion of their findings and recommendations.

I understand that any and all information exchanged during any session is educational in nature and is intended to help me become more familiar with and conscious of my own spiritual path, health status, and is to be used at my own discretion.

With this in mind, I agree that Spiritual Balancing by a supervised student, and /or Light News teaching staff, and /or Dr. Richard Jelusich cannot be held liable for any problems that might arise that I think could be attributed to the energy healing session.

My questions have been answered to my satisfaction regarding my Spiritual Balancing session and what I might expect from this session.

I have read this form and I understand and agree to the policies described herein.

By my signature below, I hereby authorize Spiritual Balancing by a supervised student and/ or Light News teaching staff and /or Dr. Richard Jelusich to administer Spiritual Balancing as they deem necessary.
