

## Awakening to Plant Consciousness

Dr. Richard Jelusich presented "Plant Medicine" with his dear brother Miguel Angel Vergara in Merida, Mexico, in 2013. Since then Dr. Jelusich has worked with Teresa Helgeson at the Blue Sky Retreat in San Diego realizing that the world really is working to find a pure connection back to Mother Earth. Awakening to Plant Consciousness brings this together by aligning likeminded individuals in one place to share and explore. Light News invites you to come participate in the **Awakening to Plant Consciousness Conference** in Calgary! This is the time of the awakening of our being to the connectedness of all things. Our key note speaker will be joined by teachers and wisdom-keepers from Canada, the U.S. and Mexico, to present their research and inner explorations. In this three-day conference of consciousness, you will learn how plants communicate and "speak." You will also become versed in the true nature of plant medicine, the consciousness of plants and how to communicate with them. In addition, you will be exposed to herbs and remedies, how to choose medicinal and edible nature plants where you live, and much more.
