INTEGRATIVE CHAKRA THERAPY®

Subtle Energy Training for the Whole Human Being

Thank you for your interest in Integrative Chakra Therapy® (ICT), formerly known as Spiritual Healers' Training for the Whole Human Being! ICT is taught in both Canada: Northern Light News Inc. and the U.S.A. Light News Institute Inc. referred to as "Light News". This is an 18-Level healing course and a journey that blends philosophy, techniques and experiential Chakra Balancing and Spiritual Healing into a beautiful unfolding of your own awareness.

The basic format of each weekend workshop is the same:

- 10:00 a.m. – 5:30 p.m.
- Syllabus of each level with Outline, Topic, Discussion and Exercises.
- Two hours or more of lecture with PowerPoint presentation, plus questions and answers, all recorded live for every student.
- Break for Lunch. (one hour)
- Afternoon experiential healing work with fellow students, starting with Level One. After Level 6, you may invite outside individuals to experience Chakra Energy Work/Healing in the afternoons

Premise: This course is not just for those who wish to learn **Chakra Balancing and Spiritual Healing**, but for those who wish to continue their personal spiritual development. You are learning Chakra Balancing and Spiritual Healing which will include and enhance your pranic, radiatory, telepathic and magnetic healing abilities naturally. Chakra Balancing and Spiritual Healing is not limited to time or space, because students are working at the level of the chakras where the whole human being emanates his/her individuation into this dimension. Therefore, this is the most powerful and fundamental healing that I know of because it works on the level of consciousness and affects the four archetypes: mental, physical, emotional and spiritual.

Students are taught how to use their chakras to observe the "**Whole Human Being**" (mental, physical, emotional and spiritual aspects of the individual), to make assessments and to allow healing energy to flow through them. As the students use their chakras, they become stronger and stimulated and eventually awakened. Students learn more than the philosophy and techniques of this powerful healing and undergo their own **inner transformation**. As students apply healing, balance and support to others, the work helps to heal, balance, and support their own physical, mental, emotional and spiritual development.

Course instruction includes the latest studies on Biofield Science, Energy Psychology, Quantum Physics and Toroidal Energy Fields.

The Goal of Integrative Chakra Therapy® for the Whole Human Being is to help you become a self-empowered, self-realized individual. Who, is a spiritually aware independent thinker; emancipated from the illusion of separation from the Oneness in which we live.

Integrative Chakra Therapy®

Subtle Energy Training for the Whole Human Being

This training will awaken and strengthen your higher sense perceptions as well as your healing abilities and as a result some of your “stuff” will inevitably come up. These levels will cause fundamental core-shifts to happen within you as you infuse more of your **Soul-Quality** into your waking consciousness. Some levels may be difficult to assimilate and take time to integrate, so listening to your lecture recordings is helpful for the process. Practicing with fellow students is a **required** component and essential to integrate the levels taught as a base for Dr. Jelusich’s more evolved teachings.

Integrative Chakra Therapy® is not for everyone, but is for those who truly desire to become spiritually stronger, more grounded, and for effective facilitation of healing in themselves and others. Dr. Jelusich will teach philosophy, science, cosmology and the esoterics of human evolution of consciousness, while providing intellectual balance to the experiential spiritual training you will do at each level. All healing boils down to one thing only:

“Healing is overcoming any illusion that separates you from the oneness in which you already live. ~ Dr. R. Jelusich

Taking the levels: In order to obtain a Certificate of Completion, you must finish all 18 levels of the Integrative Chakra Therapy®. Some levels may be audited by special permission and interview with Dr. Jelusich.

Each student must attend a minimum of three **Practice Sessions** per month (9 hours) to be recorded in their Practice Log. Each session must be under the guidance of a Qualified Graduate, a student or qualified Teacher-in-Training selected by Dr. Jelusich – these practice sessions include discussions of class information and How To’s to improve your techniques and skills.

Each student must complete the **Reflective Practice Assignment** for each level of training and deliver to Dr. Jelusich’s assistant via email, drop-box or regular post prior to the next level of training. Note every practice session questions will be answered regarding these reports and a practice session is ideal for writing the assignments.

There are two Integrative Chakra Therapy® levels taught in each training weekend; with the exception of Level 3 and Level 18. They each require a full weekend for training. Some levels are about the philosophy of healing and some are about techniques. Dr. Jelusich (previously Dean of Admin. at the California Institute for Human Science) will be teaching some science aiding students to be current with both esoteric and practical applications of Chakra Balancing and Spiritual Healing and its effects.

Integrative Chakra Therapy®

Subtle Energy Training for the Whole Human Being

Integrative Chakra Therapy® Students are taught two important phases of healing work:

1. **The Healing Work itself** - Students are taught what Subtle Energy, Chakra Balancing and Spiritual Healing really are, how they work, how to use them, how to create a safe environment, and how to use their own chakras to view the character of the person they are working on.
2. **The Story** - Students are taught how to interpret their intuitive impressions when working on clients in order to *tell the story* of what the healing is, what caused the problem in the first place, and what to do about it. Students are encouraged to continue to develop their abilities to deeply understand the healing power that is flowing through them, and to be able to articulate the exact mental, physical, spiritual and emotional condition of the client.

“While you are working on someone on the table, Dr. Jelusich is working energetically/ spiritually on you, making adjustments to your chakras, energy field, grounding, etc. Much energy is being moved in these work-shops, and it is expected that students will have unique experiences and reactions while learning healing techniques.

Dr. Jelusich creates a safe and loving atmosphere for the work and his students. Students learn in an experiential, hands-on environment. Workshops are taught and recorded with a topic lecture on methods, techniques and philosophy followed by hands-on or hands-off active healing practice under Dr. Jelusich’s direct supervision.”

Students-in-training learn about their true multidimensional nature and philosophy of one-ness.

It is strongly suggested that students take it easy and rest after each level. Most people and many students do not understand energy work, so they can get tired and some of their “stuff” can come up after a weekend of training. This is normal. Many students are now *taking Monday off* after the weekend training. It is good to get rest in the day following classes in order to process the integration of what you have learned and experienced.

Attrition: Dr. Jelusich has been teaching healers since 1999 and has more than 500 graduates and students from his Integrative Chakra Therapy® program. His teachings can bring up some of the students’ “stuff” simply because the students are now using, awakening and developing strength in their chakras while observing the condition of others’ mental, physical, emotional, and spiritual states. While developing themselves spiritually, students are presented with their own issues and karma (along with their increased abilities to deal with releasing their karma) much faster.

Your greatest success is achieved when you trust with your heart first, then use your mind.

 - Most students highly underestimate subtle energy healing, so please get adequate rest, drink water, and follow your own spiritual practices after healing workshops. If possible take Monday off to rest.
 - Levels 1-5 you practice with your fellow healers. After Level 6, you are encouraged to invite people to come for a healing experience. Students will do the experiential healing (practice) and then discuss the healing work with the volunteer after each round of healing. There are usually 3 to 4, 15-minute rounds per afternoon.
- **End of Class:** Return your name tag Sunday afternoon. The recording of your classes can be found on your flash drive for your benefit. Dr. Jelusich covers some deeply esoteric teachings that you can absorb more fully over time by listening to them again quietly at your leisure.
- **Massage Tables.** We use massage tables for the comfort of the person being worked on. The rule of thumb is one massage table for every four students (one person on the table, 3 or 4 healers). It would be helpful if you have a massage table and could bring it. Please call or email and let us know, so we can coordinate having enough tables.

The program also provides one year of course study for students wishing to follow the Spiritualist Ministry path through Universal Church of the Master of San Jose, CA.
